Subject: Appleseed Almaden Montessori Preschool

Dear Prospective Parents,

Our son has been attending Appleseed for more than a year now since he was 3-1/2 years old beginning at the Toddler class in N1 room with Ms. Yachin and has then moved up to the bilingual Mandarin W2 class with Ms. Tina Liu and Ms. Heather Clark.

Although we are both non-Mandarin speakers, our son has learned a tremendous amount of knowledge of the language and culture of China. His interactions with his friends in class have been fun, positive, and have helped him both in his social and behavioral development. Appleseed's program has allowed our son to explore his interests in the various "job" projects available in class, to master the basics of words and numbers, and to make it fun in many ways through class activities, field trips, parades, holiday festivities, etc.

Both Ms. Tina and Ms. Heather have been patient, nurturing, and consistent in their method of implementing the standards of Montessori education, which we have aspired to achieve when we first enrolled our son in Appleseed. They have been amazing in taking care of our son especially during his first week of transition to full-time preschool. They demonstrate incredible care and concern of our son's welfare at all times.

For all these reasons, we would recommend for you to consider Appleseed Almaden Montessori Preschool as school of choice for your child.

Sincerely,  
Mr. and Mrs. Whitney Dunn
