

## Letter of Recommendation for AppleSeed Almaden Montessori

To Whom It May Concern:

As working parents, it is hard to find a place where you can trust to leave your child and know they are in a comfortable and secure environment. We are happy to say, we feel we have found that place with AppleSeed Almaden Montessori. Our daughter started attending AppleSeed at 18 months old and in the past year we are constantly surprised at how much she has learned. We love that there is a curriculum and that AppleSeed provides a structured day for our daughter. She looks forward to going to school every morning and the teachers are wonderful. We really feel like they care about our daughter's well-being. They are great about keeping us updated on how our daughter is doing and also work with us on any requests we have. We believe that the educational and social maturity our daughter exhibits is attributed to her teachers' guidance. We know that when we leave our daughter at AppleSeed Almaden Montessori she is in good hands and is an environment where she can thrive.

Sincerely,

Larry & Virginia
